A YEAR AT VAN VLECK SCHOOLS

The 1990-91 school year has been an interesting year not only here in Van Vleck but also world wide.

Our fall sports faired well. In football, the Leopards took us to the play-offs. The girls' volleyball team with a new coach also did well.

We also had the TAAS test to look forward to. Many juniors worried themselves sick but ended up doing extremely well on the test.

But we also heard and saw something much greater taking place in a place across the ocean from Van Vleck Schools. Operation Desert Shield was taking place and everybody's attention was on a man named Saddam Hussein from Iraq. Now how could a man so far away affect old Van Vleck High, you ask??? Many of our ex-students were being called up and sent over there to fight.

This war brought many people together especially students here at school. The elementary and intermediate students adopted soldiers and wrote to them. They also sent many care packages to these soldiers.

Even with a pending war, life at school went on. Winter came so did basketball. The girls and boys both finished 3rd in district, but our eyes were turned again to the Middle East where Desert Shield turned into Desert Storm.

Everyone patiently waited to hear news of Van Vleck service people and praying for a short war and their safe return.

As the spring approached we were looking forward to UIL contests, One Act Play Contest, track, tennis, and baseball. Also everyone was looking for the soldiers to come home. The war was a short one and everyone was anxious especially the younger students.

And come home they did. As each soldier returned, they visited the elementary campuses greeting the students and checking their name off the huge sign made up for them.

The One Act Play did well and finished 3rd in District. The UIL contests also did good with several students advancing to Regional and two more going to State competition.

Tragedy struck as we lost one of our high school students to an accident but things brightened up again when several of our track people both girls and boys went on to compete at the Regional meet. Better yet some of our boys represented us at the State meet. Baseball faired well, but our Tennis people had a teammate to advance to Regional then unto State placing 3rd in the event.

The year is now winding down with graduation just around the corner. Most seniors will be going to college or out into the working world. The old school will not be the same without them but the new year will be bringing new freshmen up and the whole thing will start up again.

To All Members of the Van Vleck Independent School District Family:

Success begins with self. The realization on the part of the individual that no one can do it for him or her is a huge step on the road to success. The realization that most of life is what we as individuals make it is another step.

Many people like to blame others for their lack of achievement and success. I urge all of you as students to accept the challenge of self-destiny. Be what you want to be through hard work and perseverance. Grab for the golden ring and go for the gusto. It probably won't come to you unless you go for it. Good luck!

SENIOR YEAR

Our senior year is one full of many new experiences: cramming for tests, choosing a college to enroll in, writing in memory books, and mourning the loss of a very close friend and classmate — Tonya Rucker. I will always remember Tonya and her many talents (flag corps, athletics, and horse riding).

As all invitations are sealed, stamped, and delivered . . . my mind patiently awaits the first deliverance of anticipated graduation gifts — hopefully \$\$\$.

In these last few weeeks . . . our class seems to be in a constant uproar between one another. It's gotten to the point of all hatred among several long ago friendships. This is the time, before graduation, that we need to pull together — instead of pulling apart.

. . . At times I wish we could put aside all our differences because once we leave this school, some of us may never set foot in this town again . . . and . . . will never see one another again. So I ask all of you this question: "Why can't we be friends going out of here like we became friends coming in here?"

As time to graduate approaches, may I remind everyone that we may never set foot in this old, small town again, but there will be anyone who knows you better than your classmates.

Me-Me, Sharedra, Katina, Tracy

Kim, Tony — I'm all ready for my hot date.

Kim, Christy — This is the hardest work I've ever done.

THE DANCE

Looking back on the memory of
The dance we shared 'neath the stars above
For a moment, all the the world was right
How could I have known that you'd ever say goodbye

And now, I'm glad I didn't know
The way it all would end, the way it all would go
Our lives are better left to chance I could have
missed the pain
But I'd of had to miss the dance

Holding you I held everything
For a moment wasn't I a king
But if I'd only known how the King would fall
Hey whose to say you know I might have chanced it
all

And now, I'm glad I didn't know
The way it all would end, the way it would go
Our lives are better left to chance I could have
missed the pain
But I'd of had to miss the dance

Yes my life is better left to chance
I could have missed the pain but I'd of had to miss
the chance.

And so, we honor her memory; a memory that we carry inscribed in our minds; a memory in which Tonya yet lives — the vital, energetic, compassionate, caring young lady we knew and loved so well.

We resolve here and now to cherish that memory and nourish it and to keep the spirit of Tonya alive. In so doing, we know that once we had the pleasure of knowing someone like Tonya, and that has made each of us a better person.

We will see Tonya as we knew her, she seems to smile, and then we see ourselves there at her side during some part of each school day.

And we return the smile she gave and cherish in our hearts the thought that we had days to share

We know that time will not erase nor passage pale her image. We know the warmth we held for her will not fade away.

And so, dear Tonya, we keep you close, although we are apart, and we will visit with you daily in the visions of our hearts.

V.V. High School has a wide variety of clubs. From Student Council and Spanish Club, to band flags and cheerleading. V.V. also has Ag. JETS, and always the class officers. The clubs participate throughout the year in different things; such as conventions and pep rally activities.

The 1991 edition of the LEOPARD represents the close of another chapter in the history of Van Vleck High School. It is our sincere wish that as you read the LEOPARD you will relive the events of this year. We hope you will find warm, happy memories of classmates, teachers, activities and events that were part of school life at Van Vleck High in 1990-1991.

The publication of this yearbook has been a challenge to all of us. It has required the cooperation of our sponsor, without whose untiring and diligent efforts we would never have succeeded, students, staff, and those who have contributed their support through advertisements.

The challenges of higher learning, adventure, and new worlds to conquer lie immediately before us. May we all meet these challenges with courage, faith and steadfastness of purpose.

As a JETS Chapter, students will have a chance to explore the world of engineering, technology and science. Students interested in these fields will enjoy the opportunity to develop their math skills, apply their scientific knowledge and sharpen their communication skills through JETS activities. These experiences may formulate career objectives for some. For others, it may provide the opportunity to explore science and technology more comprehensively than before.

The engineering profession of tomorrow depends upon the effective career guidance efforts of today. Students participation in the JETS Program will help today's high school students explore, develop and apply their technological abilities.

The purpose of are symbolized by the emblem and its meaning. The four points of the shield stand for ambition, leadership, sociability, and poise. The shield itself stands for honor and dignity and the importance of business in America. The stripes represent the essential characteristics of every successful worker — education, citizenship, loyalty, patriotism, dependability, and competency. The bar represents the service provided by those employed in business occupations. The quill and inkwell represents the stability of business occupation; the torch represents worthy goals pursued by the organization and its members.

The Junior High was very active this year. With all athletic teams having a winning season. Also the band participated in several contests. They had dances and parties throughout the year. The 7th graders went to San Jacinto. The 8th graders made a trip to the Galleria to see the Constitution. It sounds as if they had a very busy fun filled year.

The Elementary and Intermediate Schools were involved in many activities this year. Their biggest project was "Operation S.O.S." or "Students Offer Support" for servicemen from the area in Operation Desert Shield. These students wrote letters and collected supplies to send to these troops. It was an exciting day when these troops came home and personally met the students involved.

Students & teachers uncover the sign with soldiers names involved in Desert Shield.

Darrell Cassle tells students of his experiences.

More interesting stories.

RICE FESTIVAL

Every year there is an event held in early fall called the Rice Festival. This is held in Matagorda County. This Festival was organized for the farmers as a celebration for the completion of harvesting of the crops. The Festival itself has games, rides, and booths. A giant parade is held featuring candidates for Rice Festival Queen, schools and bands from Matagorda and surrounding countries and floats. It is a good time for people of all ages.

MOTIVATIONAL SURVEY

We recently took a motivational survey to see what students really think about. These are the results:

I'm very proud that I am about to get out of school whether it's for good or for the summer.
 A reward I like to get is money.
 One thing I do very well is sports.
 My favorite school subject is English.
 What seems mysterious to me is life and death.
 When I read for fun I like to read stories about love.
 One of my better accomplishments has been my grades.
 I wonder about life.
 When I have free time I like to Sleep.
 I know I can do anything I want to.
 I enjoy being with my friends.
 Something I want to do more often is party.
 If I could go anywhere I would go to Europe.
 One of the things I like best about myself is my looks.
 The question I want answered is why people act the way they do.
 The favorite game is playing cards.
 In schoolwork my best talent is writing.
 Something I really want is money.
 What really makes me think is life.
 An important goal for me is to graduate.
 I know a lot about sports!
 If I could get the chance I would like to travel.
 Sometimes I worry about my future.
 I feel satisfied when I accomplish something.
 I spend most of my money on my girlfriend/boyfriend.
 When I get older I want to be rich.
 Something I want to know more about is people.
 The thing I want to do with my friends is have fun.
