Our annual has no particular style.  
We just made it and put it together.  
It's the one thing we want you keep + use,  
As a memorandum of this school forever.

If there's anything humorous or silly about you,  
That we have used - well, we've seen it.  
But if it is something that really wounds your pride,  
Then we're sorry, believe us, we mean it.

So here is the annual for your amusement.  
We want you to take it - go through it.  
We've completed our work, which we've really enjoyed,  
Now here is the "Black Cat" - go to it!

# RESERVES

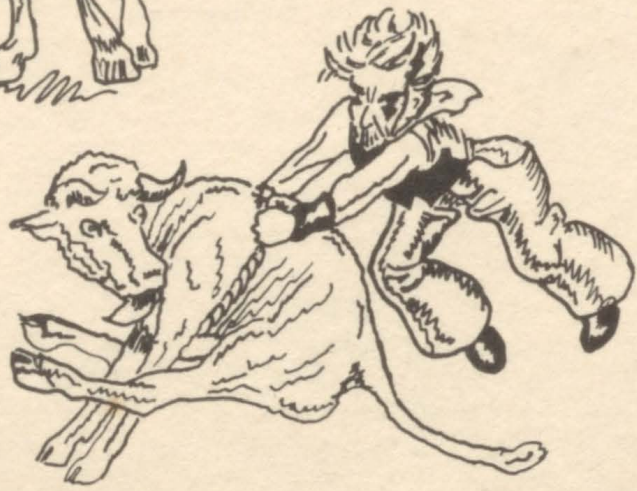

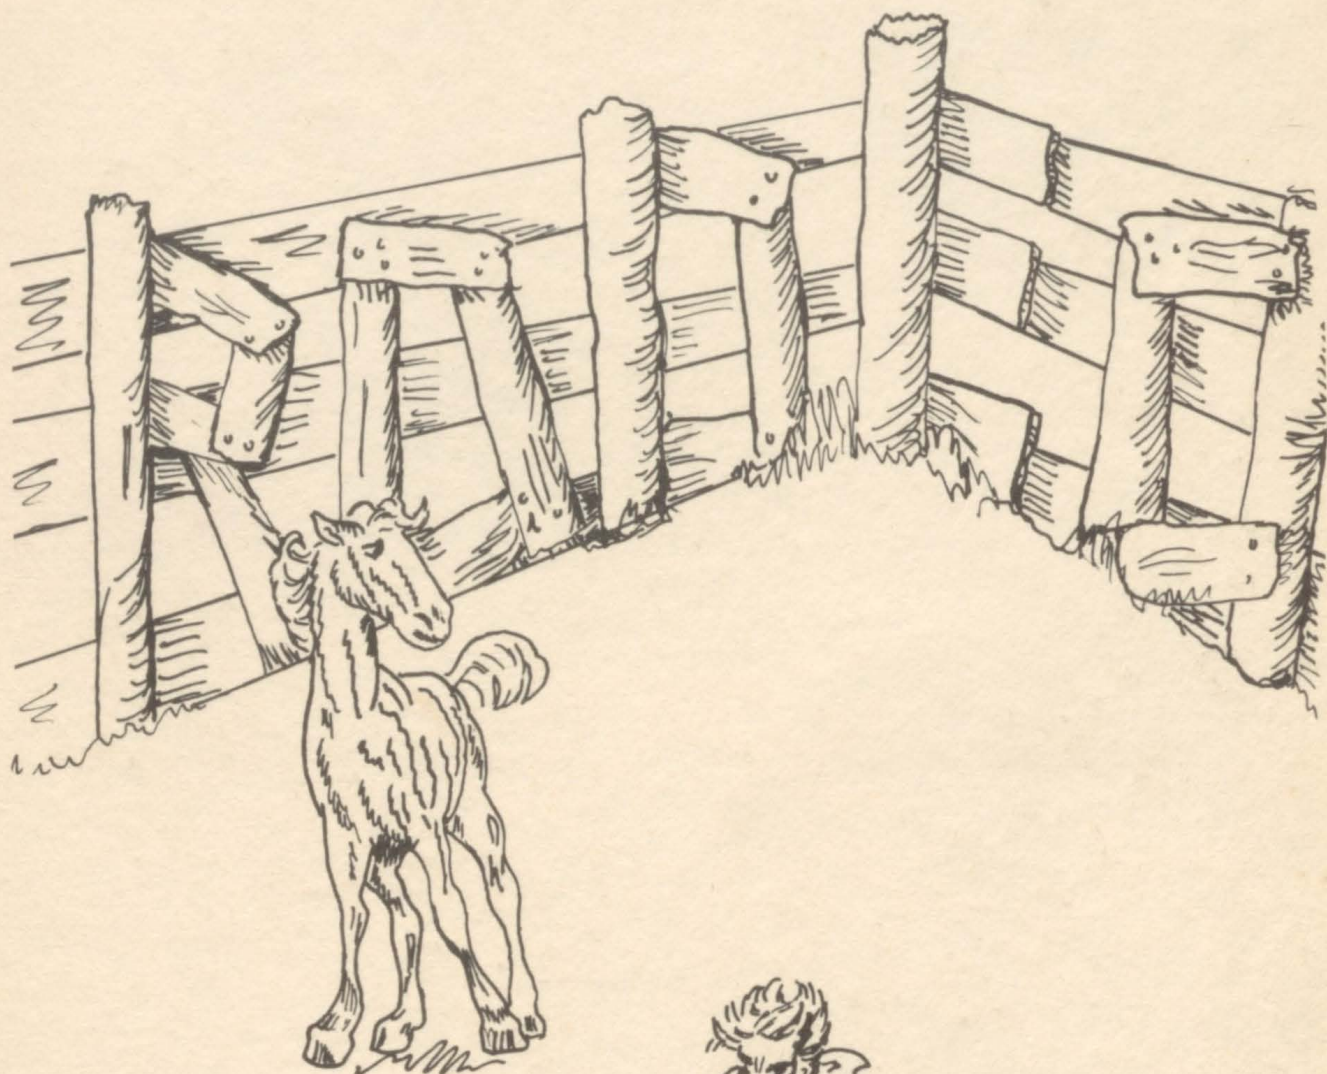

The Girl Reserves held their annual ceremonial at the Methodist Church. Christmas was celebrated in the form of a boy-girl dance and party. Gifts from the club tree were distributed among the needy.

During the year the club entertained outside speakers; Miss Owen, Y.M.C.A. representative from China, who told about the life of a Chinese girl. Miss Rich from Houston, who told Red on vacation for women. Crafts, inspirational meetings completed the year's calendar.

THAT GROUP OF SCRAPPY, DETERMINED BOYS COMPRISING THE BASKETBALL TEAM WAS SELDOM DEFEATED. BAY CITY FOR THE FIRST TIME WON ITS OWN INVITATION TOURNAMENT THIS YEAR. THE BOYS, WINNING OR LOSING, NEVER CEASED TO FIGHT AND ALWAYS THRILLED THE CROWD. MORE BOYS CAME OUT THIS YEAR THAN HAVE FOR MANY YEARS.

THE BASKETBALL TEAM, STARTING THE YEAR WITH MANY NEW BUT WILLING MEMBERS, CLIMAXED A SEASON OF HARD WORK AS RUNNER-UP FOR THE COUNTY CHAMPIONSHIP. AN INVITATION TOURNAMENT ATTENDED BY FIVE TEAMS WAS HELD, AND SEVERAL TRIPS WERE MADE TO OTHER TOURNAMENTS.

THE LETTERMEN (PICTURED IN CORNERS) WERE OUTSTANDING IN BOTH SKILL AND TEAMWORK, AND DID SOME CLEAN, SNAPPY PLAYING.

THE LEADERSHIP OF COACH ERICKSON HAS INSPIRED THE SPIRIT OF SPORTSMANSHIP AND FAIR PLAY AS WELL AS AN EXCELLENT KNOWLEDGE OF THE GAME.

True, tomorrow never comes, but tomorrow's dreams in the laboratories of electrical science have a way of coming true. Through the patient efforts of research workers, ideas, born of thinking into the future slowly but surely take concrete form.

Today's electrical servants, such as the electrical refrigerator, the electric range, the electric water heater, and the electric dishwasher were once "playthings" of scientists. The birth of radio was no less slowly.

Electric power lay a thousand years in the cradle before emerging as the giant we know today. Only the tireless energy of men such as these—servants of tomorrow—has brought entertainment to the multitudes at trifling cost.

Research is the lifeblood of progress. The fact that the electrical industry has been willing and able to invest heavily in the future is one of America's most important social and economic assets.
