Foreword

The 1946 Black Cat is a guard against forgetfulness of time. So that our memories may be in part tangible, we have attempted to include a wide range of activity, bringing the interests of as many students as possible to the various sections of this book. It is the sincere hope and desire of this Senior Class that each of you will have pleasant thoughts when glancing through the pages of this annual.

Congratulations, GRADUATES!

FROM your first grade promotion to high school graduation is a long way and there is still more to go.

Maybe you've never thought about it, but your forefathers and your fathers have fought to give you the advantages of education in a free, democratic country. They've preserved the principles of freedom for you.

Foremost among these principles is freedom of enterprise, which offers you opportunity in many professions—you can **choose** what you want to be—what you want to do.

It's up to you, graduates, no matter what path you follow—don't forget that your heritage of freedom is a precious thing. Value it highly and be thankful that **your** country is truly a land of liberty. Let's keep it so.
