

## Foreword

From the first hectic day of school to final exams, 1967-68 at Bay City High School was a memorable year. Eager to renew old friendships, but not so eager to resume classes, students returned from the "shortest summer ever" to begin the school year.

As the confusion subsided, the year began to progress smoothly. The days flew by, and with them many experiences. All Black Cats remember the wild excitement of the first touchdown of the season, the casual moments of conversation with friends, and the countless hours of study both in and out of classes.

As the school year drew to a close, the students began looking ahead to future years, but memories of the past were not pushed aside. When phrases such as "Remember how we used to . . ." occur in conversations, the 1967-68 school year at Bay City High School in Bay City, Texas, will be relived many times.

There is a guest speaker or demonstration by some artist at each meeting. Dues are paid each semester. The club takes field trips, has a money-making project (selling fruit cakes), enters local, regional, and national art contests, exhibits, and art shows. The Art Club and Art Department have their own exhibit for the community each May to display their work for the year. No matter what your plans are after graduation—whether you will be continuing your formal education, working at your first real job, or maybe going into the military—your future growth depends on YOU, on the goals you set and how you use your abilities to reach them.

Someone has said that "a genius is a man who shoots at something that nobody else can see and hits it." At Celanese we believe that there is no finer asset to a country, a community or a company than youth that aims high and does its dead-level best to reach those heights.
