Snow Visits Bay City

Bay City saw a substantial amount of snow this December for the first time in nearly two decades, well before the new high school was built. Above, Bay City High School and its lawn are covered with the nearly 8 inches that landed. All around town, covered roof tops and built snowmen could be seen from the surprising Christmas gift of snow.

What did you say?

Juniors tell all

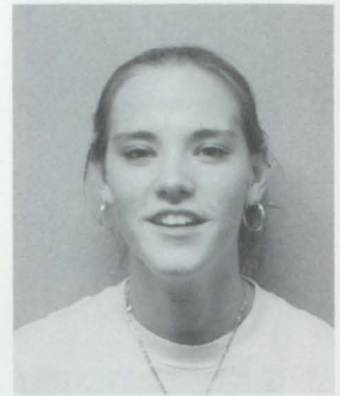

What was your favorite movie of 2004?

<-----**Daniel Webbon** **Unique Lewis**----->
 Napoleon Passion of the Christ.
 Dynamite...gosh!

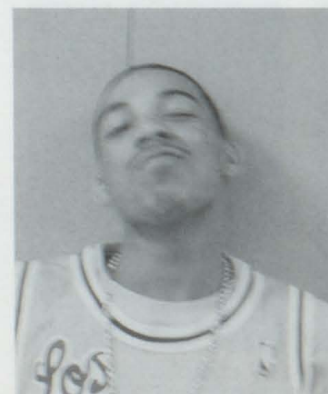

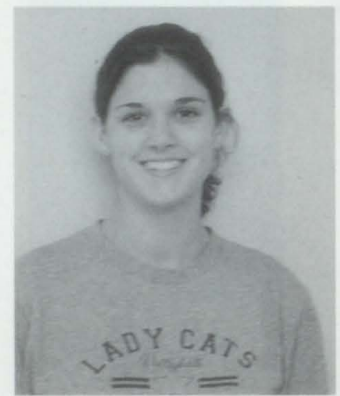

Who is your favorite teacher?
 Why?

<-----**Bradley McKissick** **Kimber Bentley**----->
 Mrs. Frankson, she's cool. Mrs. Young! She's easy, she's listens, and she's a good friend!

What was the most memorable moment of your junior year?

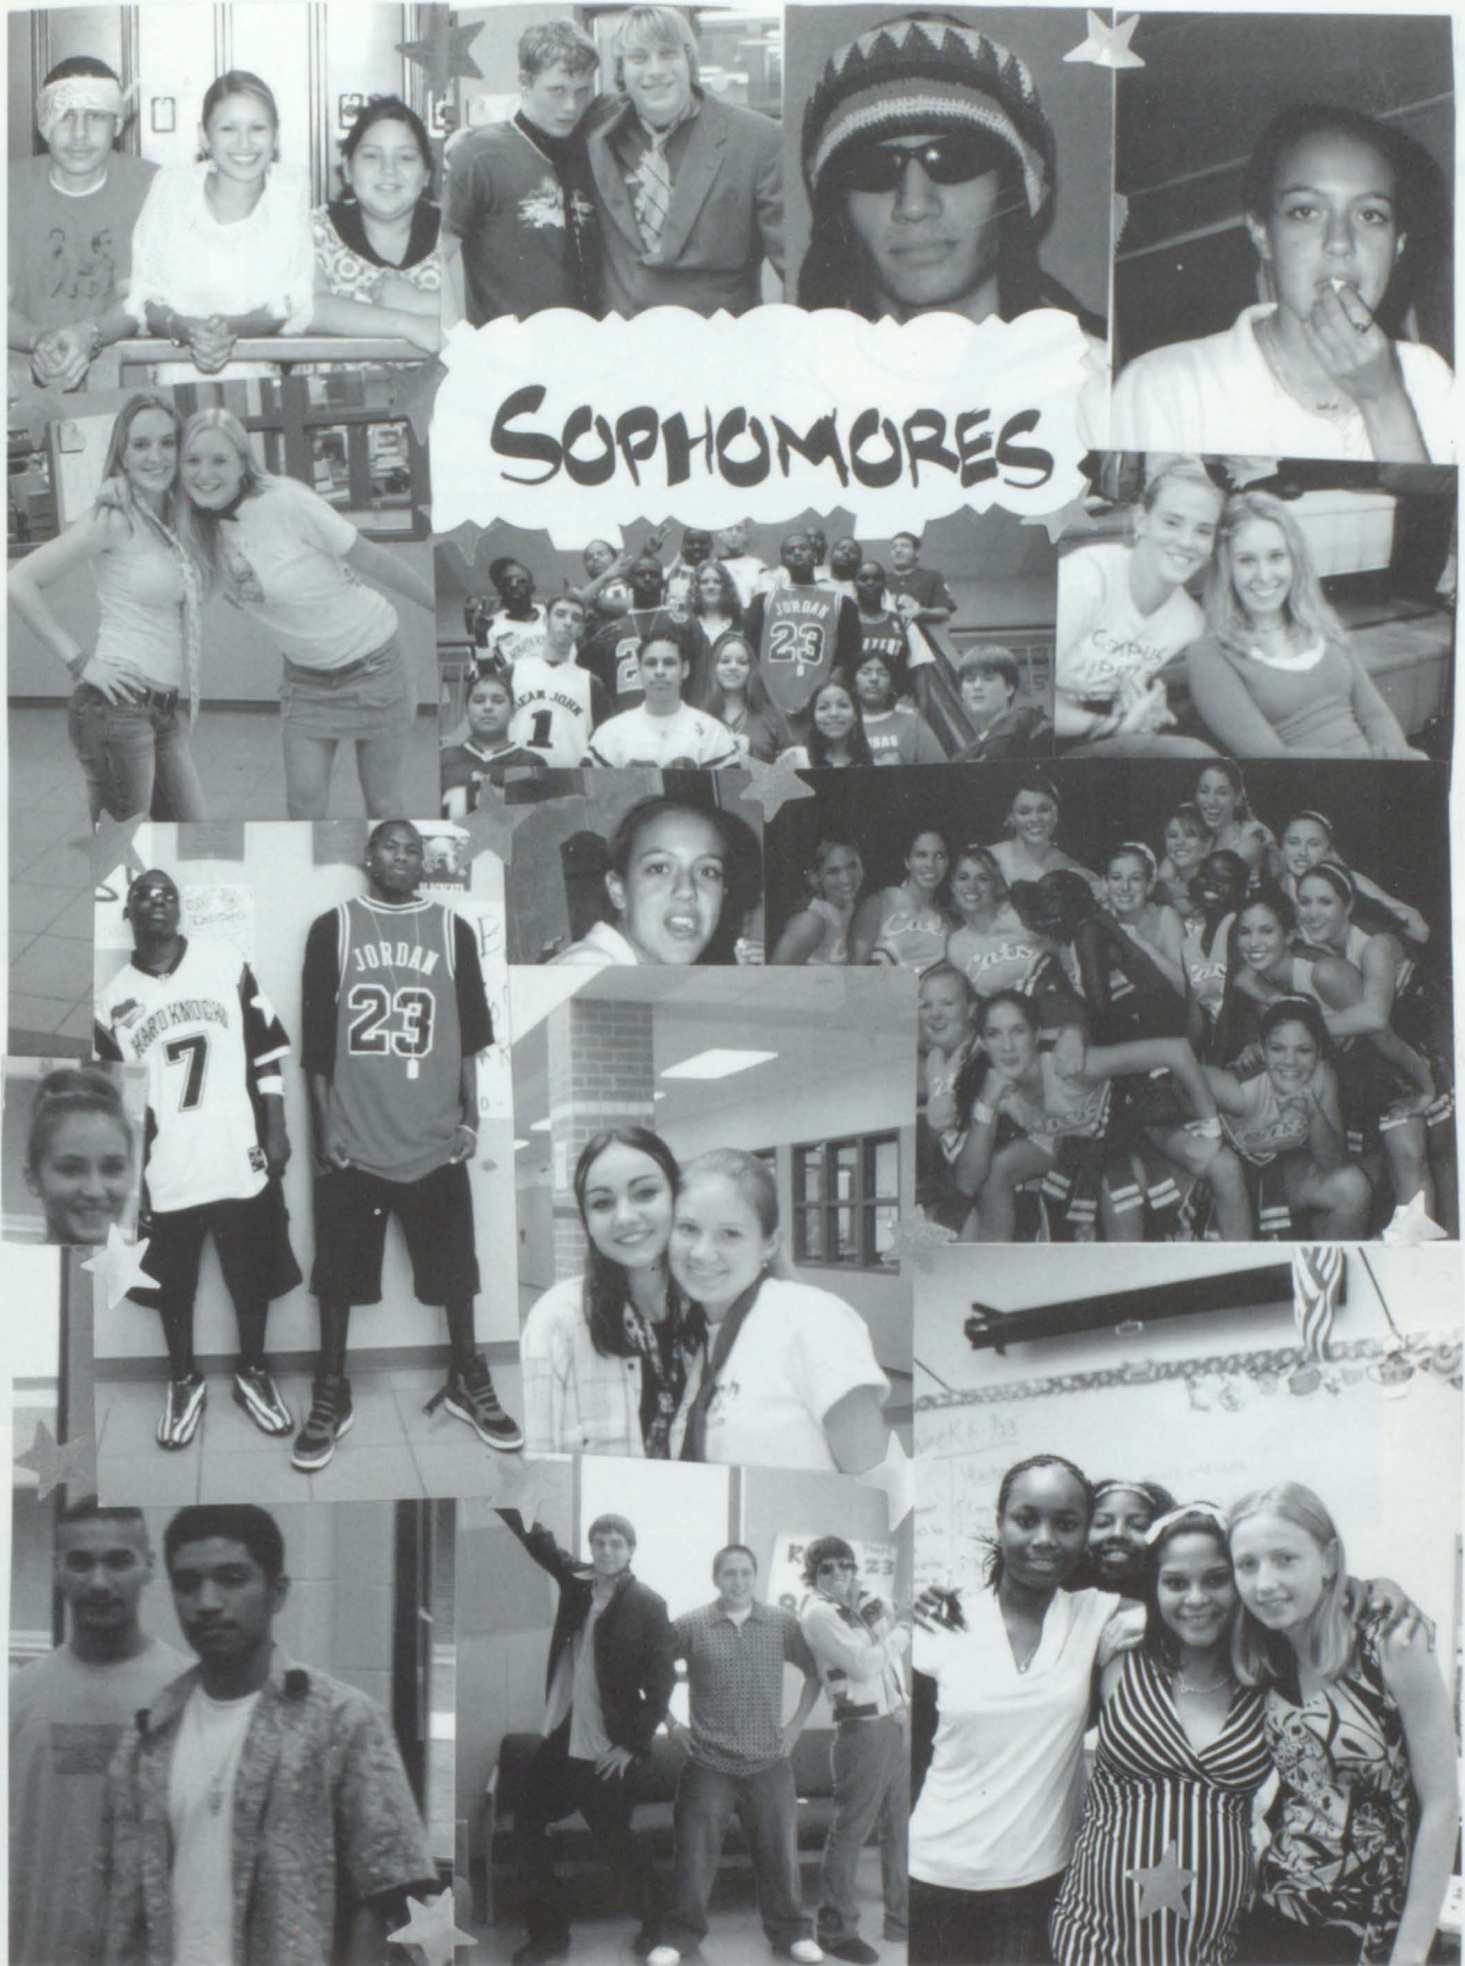

<-----**Sarah Ussery** **Sara Hartsfield**----->
 When my "friend"...hehehe, you know who you are, got out of a ticket on New Year's Eve. I'm not sure, it's not over yet.

What did you think of the snow?

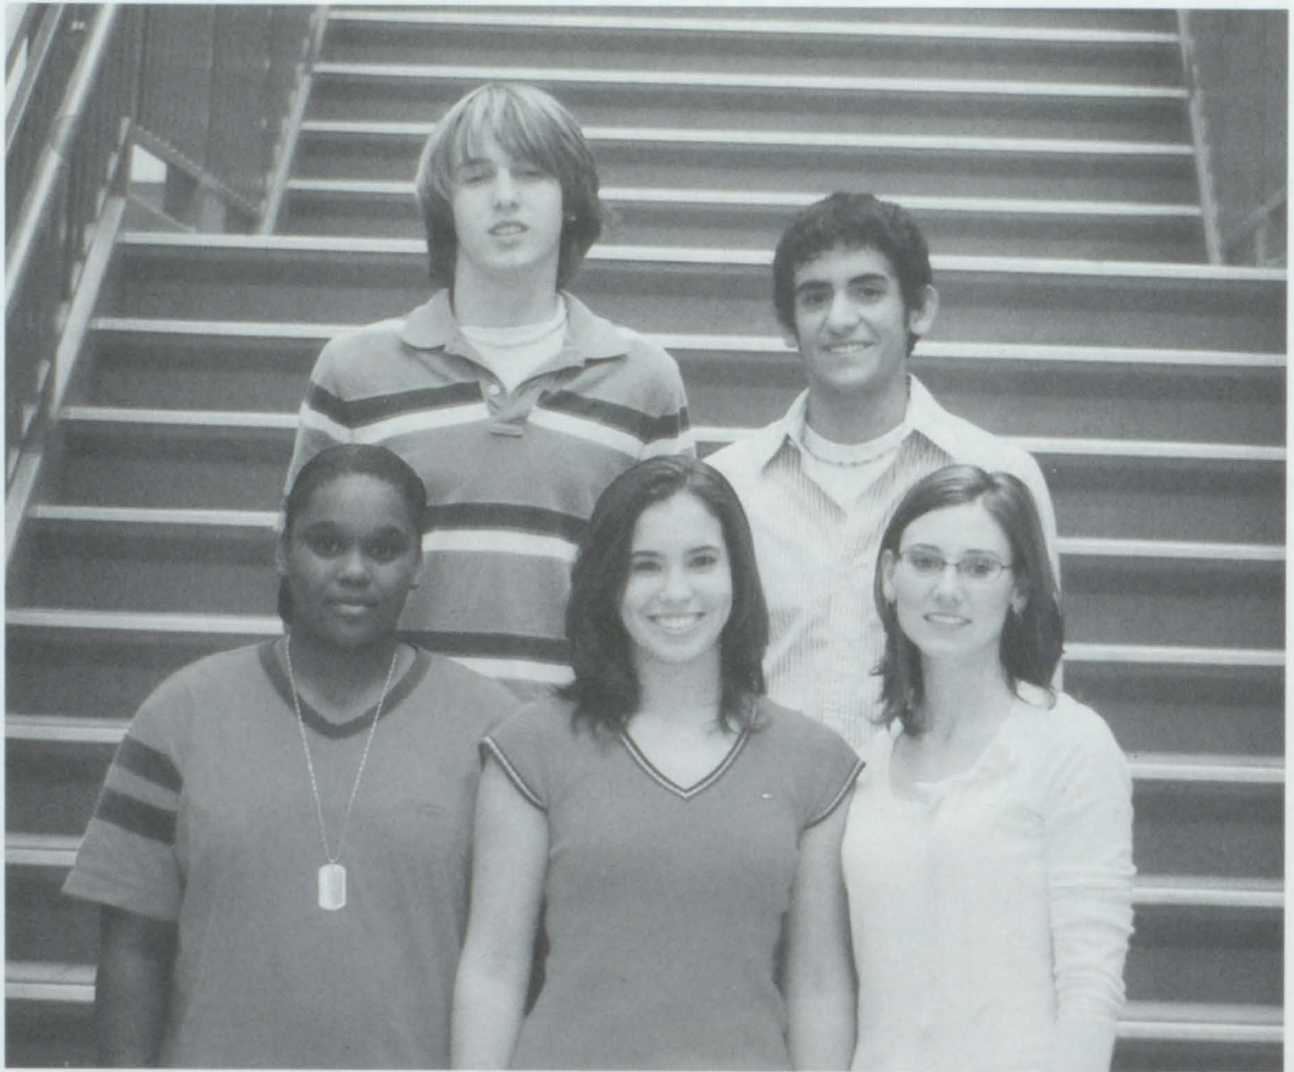

<-----**Traylon Eaton** **Peggy Mayberry**----->
 It finally felt like a real Christmas. I think that it was good to finally have a White Christmas, but I hope that it never snows again. Oh! That was real crazy, I never thought it would snow in Da Bay! It was something I will remember forever! I had so much fun, it was the best Christmas ever!

Mrs. Marilissa Young joined the Bay city High School teaching staff this year to become the art instructor. She attended high school at the International Christian Academy in Ivory Coast, West Africa. She came back to the United States to go to Howard Payne University in Brownwood, Texas where she majored in Elementary Education.

She chose to teach at Bay City because her husband became the pastor at First Baptist in Van Vleck. Her goal for this year is to " help students how art can be an emotional and creative outlet, and to help them discover their life goals." Mrs. Young believes that the most important part of teaching is caring for the students. " I really do love to create through art," she says.

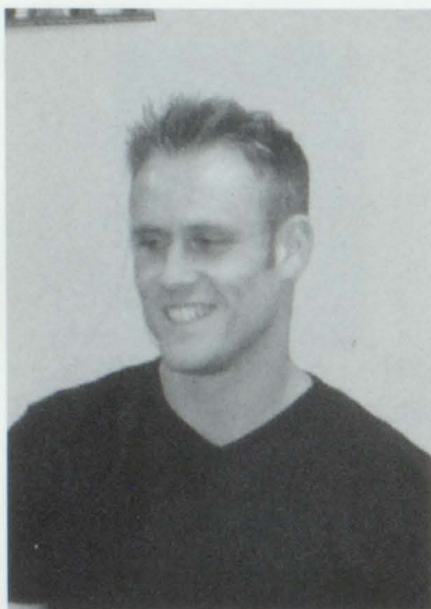

She and her husband, Aaron Young, have been happily married for five years and have an eighteen month old son named Luke.

Kyle Tidwell has joined the staff for the 2004-2005 school year at Bay City High School. He is a graduate of Belton High School in Belton, Texas and went on to further his education at University of Mary Hardin-Baylor. While attending UMHB, he majored in Business Administration. He came to Bay City because it was a good opportunity to start a career.

When asked what his goal for this year is he replied,"to be an educator and help students be the best that they can be." Mr. Tidwell is a Special Education teacher as well as a coach. He says the most important aspect of teaching is "talking with students to work through problems." He enjoys watching live sports and playing golf in his free time.

One of Bay City High School's new teachers this year, Charlie Reeve, is a graduate of Victoria High School. He went to college at Texas State University, where he majored in Sports Science and History. He has no children, but is engaged. Mr. Reeve says that he came to Bay City to teach because he likes South Texas and enjoys being around the good kids here. His goal this year is to win another state championship for Bay City High School. Mr. Reeve thinks the most important part of teaching is conveying to the students that you want them to learn.

Mr. David Gibbens is a new addition to the Bay City High School teaching staff. He graduated from Van Vleck High School, and went on to attend college at Stephen F. Austin State University where he majored in Kinesiology and History. He came back to Bay City to teach so he could return to where he grew up. His goal for this year is to improve the quality of his students' lives. To Coach Gibbens, the most important part of teaching is being able to reach today's generation. The thing he enjoys most is the look on a child's face when they finally grasp the concept. He is married and has one child.

Mr. Doug Smith joined our Bay City High School teaching staff this year to coach, teach World Geography, and World History. He attended high school in Edmonton, Alberta, Canada. He also went to college there, where he majored in history.

Smith said he came to Bay City to teach because he "heard it was a good school in academics and athletics."

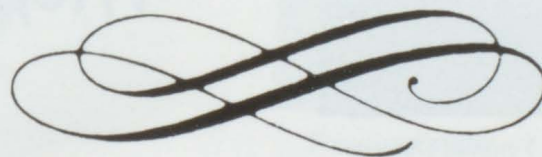

His goal for this year is only to learn all of his students' names in every one of his classes. In his belief, the most important part of teaching is to provide information students can use to become successful.

In his free time, Mr. Smith likes to spend time with his wife and two sons.

Jill Pavlu Oates, one of many new members to the Bay City High School staff, went to Lamar Consolidated High School in Rosenberg, Texas. Soon after graduation, she enrolled at Southwest Texas State in San Marcos and earned a Bachelor of Business Administration in Administrative Sciences and Secondary Business Education. When asked why she came to Bay City, of all places, she said, "I think Bay City High School is awesome, and Mr. Roberts is wonderful!" Her main goal this year is to motivate her students to do their best and she feels that the most important part of teaching is reminding students that they are in control of their own destiny in life. She is married to Kelly Oates, a 1985 graduate of Bay City High School, the father of her three children, Cameron (10), Connor (8), and Alana (4).

Andrew Dallinger is a new teacher to the Bay City High School Teaching staff. He graduated from Nolan Catholic High School and then attended Texas A&M University Commerce where he majored in Health and Physical Education. He came down to Bay City to pursue a job in athletic training. He is the "New Doc" for our training staff and athletes.

When asked what one of his goals for this year was, he replied, "Making a positive impact on the students' lives." One of the most important aspects of his job is seeing his students succeed. He enjoys seeing his students succeed as a result of his positive influence on their lives.

Jamie Carlile came to Bay City High School to teach World History and Government and to coach football. He went to Lufkin High School and then Tyler Junior College. At Stephen F. Austin State University he majored in Kinesiology and History.

Mr. Carlile said he came to our school for the football. Therefore, it should come as no surprise that his goal for this year is to win the state championship.

When Mr. Carlile was asked what the most important part of teaching was, he replied, "seeing former students achieving success in college." He says that working with kids is what he enjoys most.

He is married with children.

Julian Rodriguez went to Bay City High School, and he proceeded to attend the University of Texas in Austin. He decided to come teach Spanish here in Bay City so he would be close to home. His goal for this year is to get everyone moved up to level-two proficiency in Spanish. He believes that the most important parts of teaching are trying to motivate the students to be disciplined, to show respect, and to be honest. He enjoys seeing a student achieve the goal of speaking the Spanish language. He comes from a family with several members in the military, and his mother, Mrs. Rodriguez, teaches Spanish here as well.

Satcey Appling is one of the new teachers at Bay City High School. She graduated from Canyon High School in New Braunfels and majored in English Literature at SWT. She is a Diagnostician here in Bay City, and when asked what her goals were for this year she said, "to get my masters" and "to learn all she can about her new job as a diagnostician." Also when we asked her why she came to teach at Bay City she said, "to be close to the beach." She believes that the most important part of teaching is "making it fun and interesting for the students." The thing she enjoys most right now is sleeping. She is married and has three children ages 14, 6, and 3.

Tiffany Saunders attended Bay City High school and then enrolled in West Texas A&M and majored in Mass Communications- Broadcasting. She came to Bay City to teach and teach at her former high school. Her goal for this year is to make an impact on her students and teach them an appreciation for our governmental system. To her, the most important part of teaching is having the students involved in the learning process and incorporating real-life and present-day events into the lessons. She most enjoys it when students realize they've learned something useful and talk about how they use their gained knowledge. She is a hometown girl, and all of her family graduated from Bay City High School. They still live here to this day.

By Savanna Lucky

This year we welcome Mrs. Brooke Saucier Osborne to Bay City High School. Mrs. Osborne teaches TAKS Reading and Writing and is the yearbook advisor. She is a 1995 graduate of Bay City High School. After high school, she attended Texas A&M University in College Station where she double majored in English and Journalism.

She says she came here to teach because she loves Bay City, especially her Alma Mater, Bay City High School. Mrs. Osborne says there is no other place she would rather teach. In her opinion, the most important part of teaching is actually making a difference in students'

lives. What she enjoys most about teaching is seeing the proverbial light bulb go off in students' heads and realizing she is really getting through to her classes.

Mrs. Osborne says that she has many goals for this year. She is aiming to be the best teacher she can be and to facilitate learning in all her classes. She says that one major goal is to help as many students as she can pass the reading and writing portion of the TAKS test. In addition, she hopes to guide her Journalism students to make the best yearbook possible for 2005 and to lay the groundwork for future successful yearbooks.

She is married to her husband Brandon Osborne, a 1993 graduate of Bay City High School, who she describes as "wonderful and my best friend in the whole world." They have been married since December 6, 2003. When asked if they have children, she replied "a beautiful three-year-old chocolate and tan Chihuahua named Lexi."

Teacher of the Year

"Being voted *Teacher of the Year* by my colleagues here at Bay City High School is truly an honor for me," said Mrs. Grace Saucier, English department head.

Mrs. Saucier began her teaching career in BCISD in 1967, the year she graduated with a double major in English and History from Austin College in Sherman, Texas. She was a graduate from Bay City High School, and said she was delighted to return and teach at her Alma Mater.

She taught in BCISD for three years and then took a leave of absence from teaching for ten years to stay home and rear her children. She started teaching again in 1980 for Pasadena ISD. From 1981 to 1988, she taught English in Clear Creek ISD and then taught in Tuloso-Midway ISD in Corpus Christi. She and her family moved back to Bay City in 1992, and she has been teaching here ever since.

Mrs. Saucier said, "I like all aspects of English, but my passion is for literature. I enjoy sharing that passion with my students, and we read as much literature as we possibly can each year."

"Mrs. Saucier was selected as *Teacher of the Year* because she is well respected by the students she teaches and her peers and is also our English Department Head," said Principal Hal Roberts. "She gets the best out of the kids and does what is necessary for helping kids learn. She teaches English, but she teaches more than just English. We are truly fortunate to have a teacher like her."

The purpose of the Dugeoneers is to encourage the appreciation and continued efforts of high school students in speech and theater activities. Members of the group like the camaraderie and fellowship they build through their love for the arts and forensics activities. Also, they like that they can be challenged in the skills and talents they have, whether they are debaters, dancers, or actors. To improve the Dugeoneers' principle of "continued growth" is a top priority. As well as making sure all students can be given the opportunity to succeed in performing arts and public speaking. The Dugeoneers has a positive effect on the student body because the students take the communication and discipline skills they learn and apply them to other organizations and to the classroom. The Bay City community has great respect for our program as it fulfills an artistic need community members desire. Whether it is being involved in Veterans' Day, the Bay City Rice Festival, or producing play productions, the Dugeoneers, I believe, make an impact on our city.

STUDENT COUNCIL

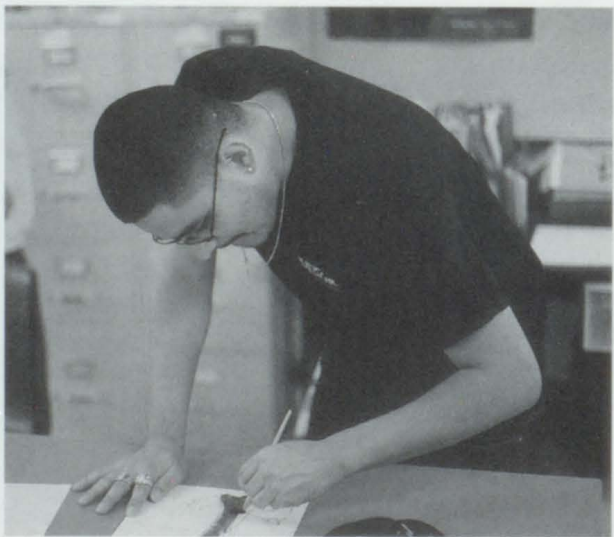

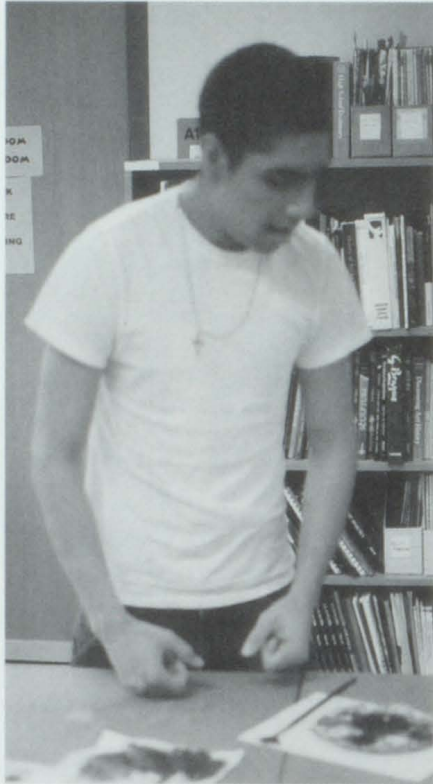

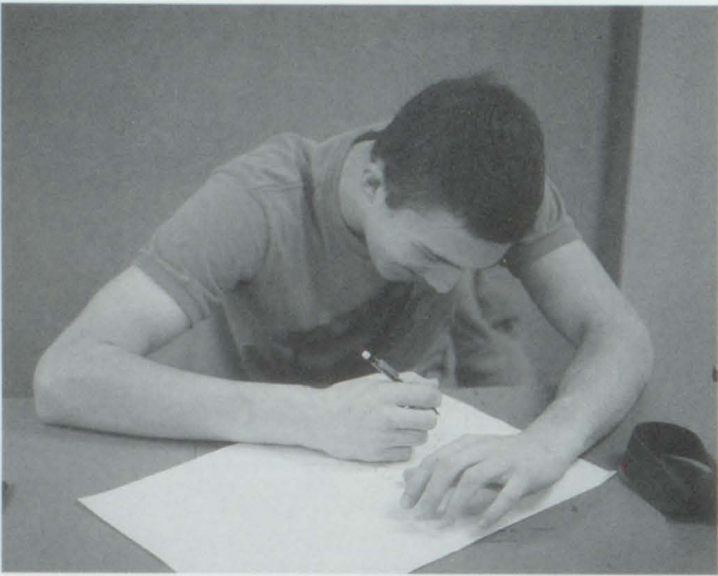

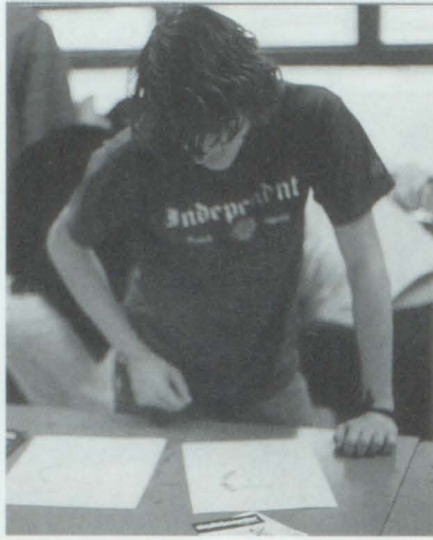

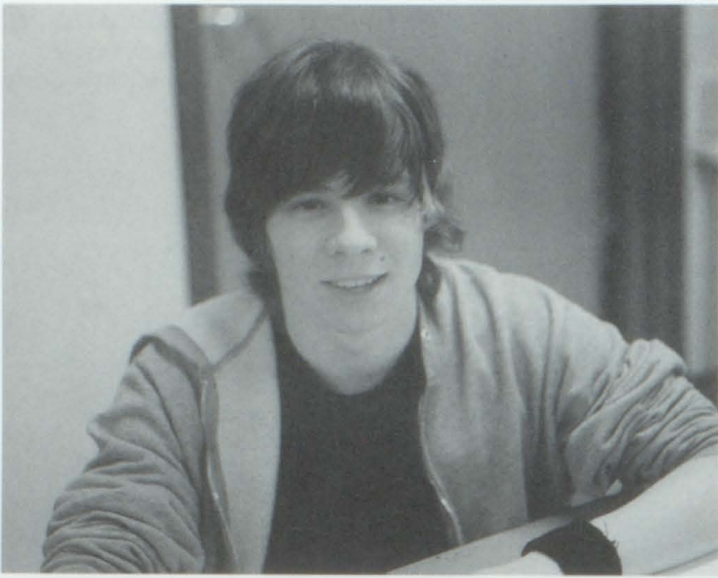

Many would say the Student Council is a student government, or something like that, but to me, Student Council is a tool that, when used properly, can transform any person, no matter what background or personality, into a leader. The best part of Student Council is the state workshops and conventions. It is amazing how many people are involved in an organization that seems so small in our community. State activities helped me realize that I can make an impact on our school. The members of Student Council are in the process of improving it right now.

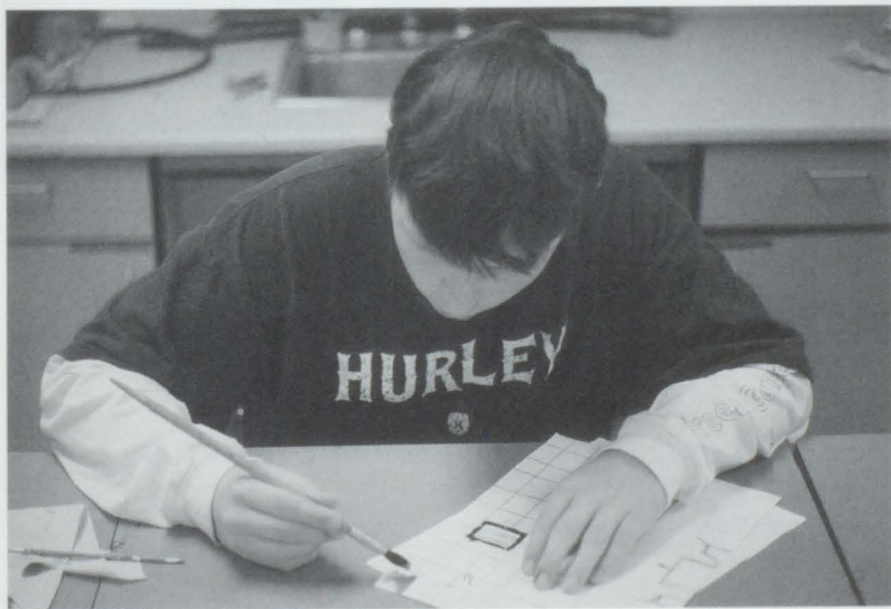

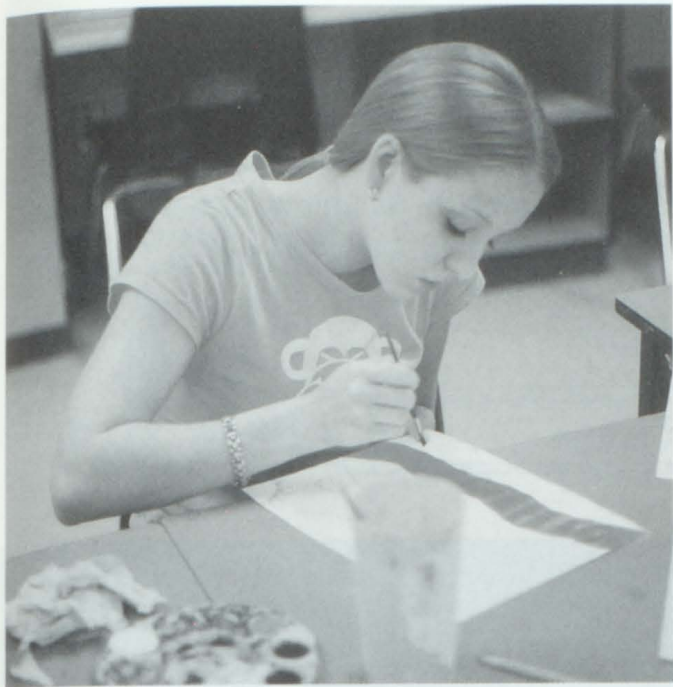

This year we have become more active and constantly have planned events to work on. Staying busy is the key to having an effective organization. Having planned events keeps members interested and motivated. The only for I have for next year, is that membership will decline and the council will lose the momentum that it has gained this year.

Student council is a very active part of the workings of student-related functions. Each year we hold class officer elections, and each elected class officer is required to be a member of Student Council. We also organize Homecoming activities such as the coronation ceremony, spirit weeks, and dance. Student Council impacts the community by awarding points to members for doing community service. Although many events have a community focus, like the Veteran's Day assembly and blood drives, many members are unable to participate due to conflicting events. These members are then allowed to earn their points by doing community service.

Health Science Tech is a preparatory class at the Bay City High School for students who plan on going into the health field as a career. The members of this class leave campus to go on clinical rotations during the school day as part of this course. When they graduate from the class, they are prepared for an entry level job in a health care field directly after high school. They can train to become a licensed and certified health care worker through this program. Continuing the training for these students will help them land the medical jobs that they will enjoy and in which they will prosper.

Training Our Future Stars

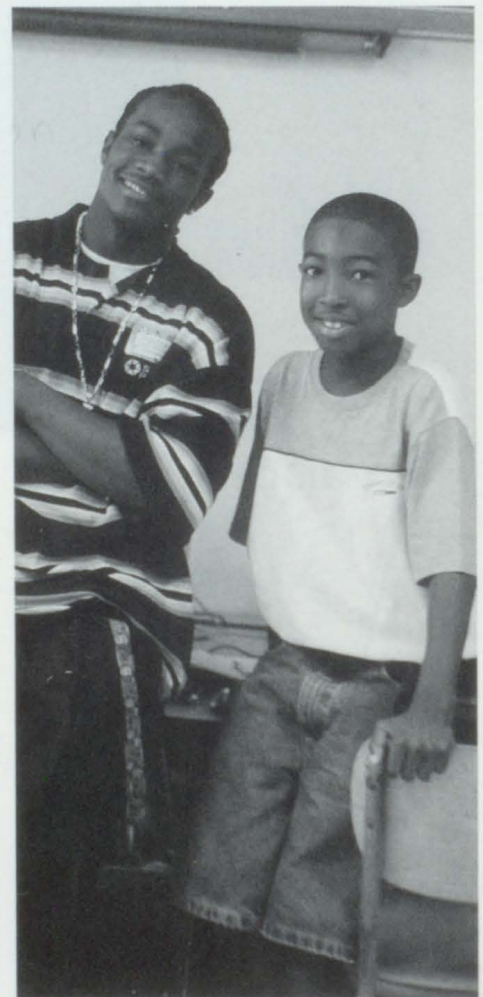

Left: **Whitney White** poses while reading her PAL a book.

PALS is a state-accredited course that empowers students to serve effectively in specific peer-to-peer or general leadership roles. The program allows students to help their peers and younger students to have a more positive and productive school experience. PALS gives students the opportunity to be friends to students in the community that need support. PALS shows the student body how to be role models to youth. PALS shows the community that there are students who want to help the youth in our community. This enhances their chances for successful completion of their academic careers and creates a positive foundation for their future. It is also a way to give back to our community and know that, as young adults, we can help make a positive difference.

Annual Shopping Spree

Every year, for the past fourteen years, people from all across the community have competed in a shopping spree. The shopping spree pits teams from various local organizations and businesses, such as Girl's Interact and the Matagorda County Advocate, against one another in a competition to find all the items on the shopping list the fastest. In the 2004 competition, there was a record number of teams competing, and many of them were composed of Bay City High School students.

SEAN MOYA

God gave us a wonderful miracle the day you were born. You came into this world with so many odds against you, but the gifts that God bestowed upon you shine so brightly:

Your ability to make others laugh, the kindness you show to others and the joy you bring to not only us but to everyone that has touched your life, and I can't forget that beautiful smile.

You have been a wonderful son and we are so proud of you and all your accomplishments.

We know you will continue to let all your gifts and talents shine.

*We love you,
Mom & Dad*

CONGRATULATIONS!

Marthea, on Oct. 29, 1986 God blessed us with our precious little angel, and in a twinkling of an eye you've become our darling and adorable young lady. Congratulations on your success thus far. Reach for the stars, and never forget:

You can do all things through Christ that strengthens you. We're so proud of you and we love you dearly. Good luck on your college adventure and always remember what God has for you it is for you!

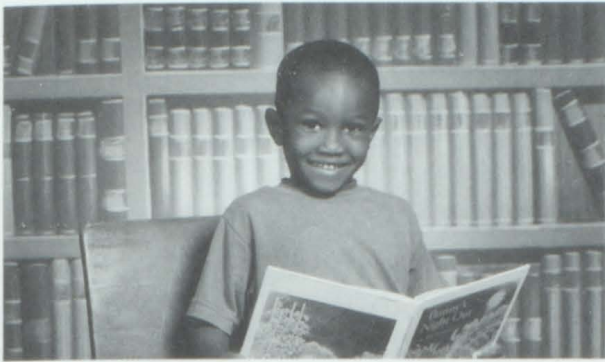

Love you,
Mama, Daddy,
Grandmama and "Pops"

Hunter,
May the Lord bless you
always.

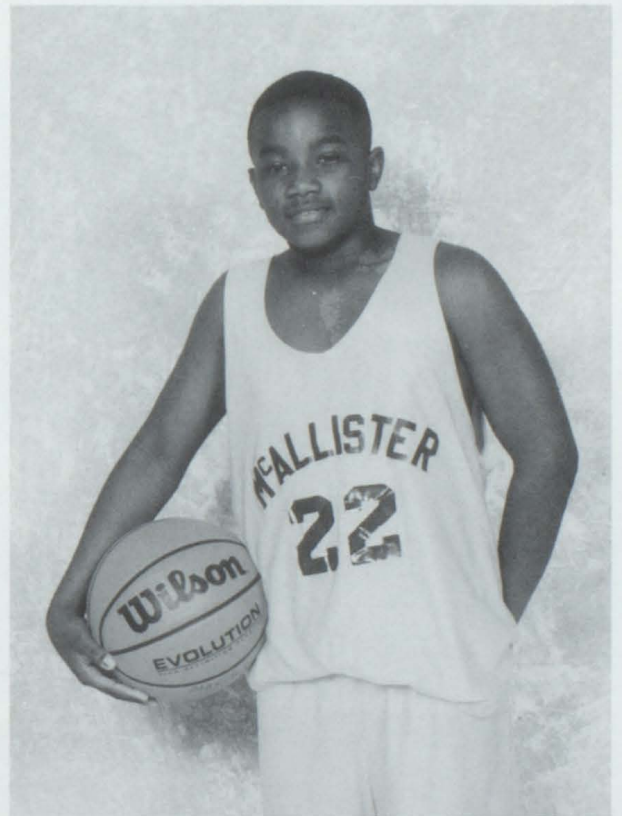

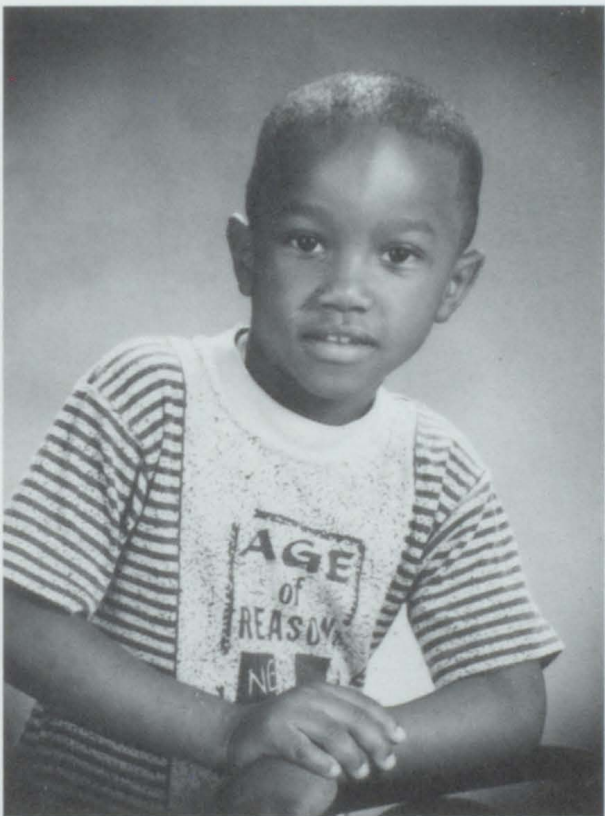

Love,

The purpose of the Yearbook Staff is to capture and record each year at Bay City High School to provide students and staff with a wonderful momento of their time here. The end of the year is the best part of being on the Yearbook Staff. That is when the work is done, and the feeling of accomplishment is incredible. The wonderful Yearbook Staff is continually striving to improve the yearbook by working on pictures, design, and writing. Also, the staff works hard to make sure the yearbook shows all of the students, and not just a select few. The yearbook staff impacts the community by preserving the history of Bay City High School and its students. Both are at the very heart of Bay City.

Our Brightest Star!

Dedicated To Chuck! We love you!
October 20, 1986 - April 22, 2004

He had the eyes of a miracle and the wisdom of God's word. He was the wings of the Angel who couldn't fly and had a touch that faced every problem with a smile and sang his way through sorrow. He was a gift from the Heavens that needed to return home. Our lives were touched by that miracle and everyday we saw the smile of that angel, but he had to spread his wings and fly to a place where we shall meet again. His life was precious and pure, his heart beautiful and denied no one. His spirit, his memories, his dreams will never be forgotten but will live on through us.
